**COMMENTS**

Sir/Madam:

Our office contacted you last week with regard to obtaining a Serial Number for a Utility Patent Application filed 19 February 2004. The Inventor's name is Christopher MANZINI. We were told that there is a huge backlog of applications awaiting filing receipts and that they were unable to give us a serial number at that time. We filed the application on 19 February 2004, with a self addressed stamped postcard for the return of the serial number however, we fear it has been lost. In the meantime, we spoke with a clerk in the OIPE department who advised if we could produce our cancelled check for the filing of the application, that there was a possibility of locating the serial number. The information is needed for the International application we are filing.

We have attached our cancelled check no. 16344 in the amount of \$1,082.00 payable to the Commissioner for Patents. Please advise if you are able to provide us with a serial number. Our docket number is 48468-00003 and our customer number is 23767. Should you need further information, please contact me at 202-661-3724. Our fax number is 202-331-1024.

Regards, Faye Simerly
